

QUALITY ASSURANCE TESTING LAB,
WESTERN REFRIGERATION PVT. LTD.

Test Report for Deep Freezer Performance

Testing Lab Name:	Quality Assurance Testing Lab, Western Refrigeration Private Limited
Testing Lab Address & Location:	Survey no 633,634,635,636,638,726/1,732,736,741,743,747,748,752 Village Tadgam, Taluka Umbergaon District Valsad, Gujarat – 396135
Unit Picked Up From:	Production Line FG Unit
Appliance:	Deep Freezer
Manufacturer:	Western Refrigeration Private Limited
Type:	Hard Top Deep Freezer
Model name :	D340H222G
Machine Serial number:	42633260400164
Refrigerant Name:	R-290 (75 gram)
Rated voltage / frequency / number of phase:	230V / 50Hz / 1 Ph
Rated Gross Volume (Litre):	320
Rated Storage Volume (Litre):	290
Electricity Consumption per year (kWh/year):	1066
Test Report No.:	WRL/TAD/26/0028
Report Issue Date:	06.05.2026
Date of Sample Receipt:	29.04.2026
Condition of Sample on Receipt:	Satisfactory
Sample UID No.:	WQL/TAD/CF/260429/0028
Purpose of testing:	For BIS requirements
Test Standard / Procedure:	IS 7872 : 2020 Deep Freezers - Specification + Amendment No. 1 January 2022
Date(s) of testing:	30.04.2026 TO 05.05.2026
Test Result:	PASS
Total Number of Pages:	6
Remarks:	According to the production schedule and test frequency specified in BIS standard IS7872, the FG machine was picked up from logistics.

Remarks :

1. The results contained in this report correspond only to the particular test sample(s) as received for testing.
2. This Test Report shall not be reproduced except in full without written approval of the QA Assistant General Manager

Test Type:	No Load Pull Down Test
Test Report No.:	WRL/TAD/26/0028
Model name :	D340H222G
Machine Serial Number :	42633260400164
Date of test:	30.04.2026
Tested by :	Akash Tripathi
Test Standard(s):	IS 7872 : 2020 Deep Freezers - Specification + Amendment No. 1 January 2022 (Clause 11.1)

Test Summary

Parameters	Rated/Declared Value (Specification)	Measured Value
Ambient test conditions:	43 ±1°C & 45~75% RH	43.0°C & 50.0%
Test Voltage:	230 ±1%	230.3
Test Frequency:	50Hz ±1%	50.0
Temperature of Freezer compartment (F1 °C)	<-18°C (Average Air Temperature)	-20.2°C at 200minute
Temperature of Freezer compartment (F2 °C)	<-18°C (Average Air Temperature)	Not applicable
Maximum warmest temperature (°C)	<-15°C	-18.6°C at 200minute
Temperature Control/thermostat Setting		8 #
Pull down time (Minutes) to reach Average Air Temperature < -18°C.	< 200 minutes	122 minutes
Result		PASS

QUALITY ASSURANCE TESTING LAB,
WESTERN REFRIGERATION PVT. LTD.

Test Type :	Energy Consumption test			
Test Report No.:	WRL/TAD/26/0028			
Model name :	D340H222G			
Machine Serial Number :	42633260400164			
Date of test :	30.04.2026 TO 02.05.2026			
Tested by :	Akash Tripathi			
Test Standard(s):	IS 7872 : 2020 Deep Freezers - Specification + Amendment No. 1 January 2022 (Clause 11.2)			
Test Summary				
Parameters	Rated/Declared Value (Specification)	Energy at Single set point with Target temperature	Energy test by Interpolation - Two set point	
		Measured Value	Measured Value at Warm point 1	Measured Value at Cold point 2
Ambient test conditions	38°C ± 1°C & 45~75% RH	Not applicable	38.0°C & 65.0%	38.0°C & 65.0%
Test Voltage	230 ± 1%	Not applicable	230.3	230.07
Test Frequency	50Hz ± 1%	Not applicable	50.0	50.0
Temperature of Freezer compartment (F1 °C)	-18°C ± 2°C (Average Air Temperature)	Not applicable	-16.1°C	-19.2°C
Temperature of Freezer compartment (F2 °C)	-18°C ± 2°C (Average Air Temperature)	Not applicable	Not applicable	Not applicable
Temperature of Freezer compartment if more than 2 (°C)	-18°C ± 2°C (Average Air Temperature)	Not applicable	Not applicable	Not applicable
Average Temperature of Freezer compartment (°C)	-18°C ± 2°C (Average Air Temperature)	Not applicable	-16.1°C	-19.2°C
Energy meter reading (Wh)		Not applicable	646.64	823.89
Time elapsed (minutes)		Not applicable	378	372
Percentage running time (Hours)		Not applicable	64.9%	90.1%
Target temperature - (t _x)		Not applicable	-18.0°C	
measured compartment temperature for point 1 (warm point) - (t ₁)		Not applicable	-16.1°C	
measured energy consumption rate of the appliance for point 1, - (E ₁)		Not applicable	2.463	
measured compartment temperature for point 2 (cold point), - (t ₂)		Not applicable	-19.2°C	
measured energy consumption rate of the appliance for point 2, - (E ₂)		Not applicable	3.189	
calculated energy consumption rate of the appliance at the target temperature t _x (E _x) kWh/Day $E_x = E_1 + \left[(E_2 - E_1) \times \frac{(t_x - t_1)}{(t_2 - t_1)} \right]$		Not applicable	2.908	
Energy consumption rate per day (Wh/Day)	2920.5		2908.3	
Annual energy consumption (kWh/year)	1066		1061.519	
Parameter	Specification	Result	Result	
Declared Annual Energy Consumption shall be less than or equal to 1.1 * Measured Annual Energy Consumption)	≤ 10%		-0.42%	
Result			PASS

Test Type:	Thermal Insulation Test (External Condensation Test)
Test Report No.:	WRL/TAD/26/0028
Model name :	D340H222G
Machine Serial Number :	42633260400164
Date of test :	02.05.2026 to 03.05.2026
Tested by :	Akash Tripathi
Test Standard(s):	IS 7872 : 2020 Deep Freezers - Specification + Amendment No. 1 January 2022 (Clause 11.6)

Test Summary

Parameters	Rated/Declared & Specification Value	Measured Value
Ambient test conditions:	31°C to 33°C & RH 70 to 75%	33.0°C & 75.0%
Test Voltage:	230 $\pm$ 1%	230.3
Test Frequency:	50Hz $\pm$ 1%	50
Average Temperature of Freezer compartment (°C)	-18°C	-18.6°C
External Condensation	No Condensed moisture is visible on the outer surface. No running droplets are visible on the external surface of the freezer.	No Condensed Moisture Or Running Droplets Observed On The Outer Surface Of Freezer

Appliance actual Images during test

Result	PASS
